CONTENTS

JANUARY 1996 VOLUME 132 NUMBER 1

Tansley Review No. 86 Accumulation of phytoalexins: defence mechanism and stimulus response system. By C. J. SMITH 1

Xylem recovery from cavitation-induced embolism in young plants of *Laurus nobilis*: a possible mechanism. By SEBASTIANO SALLEO, M. ASSUNTA LO GULLO, DOROTEA DE PAOLI AND MANUELA ZIPPO 47

Growth and sugar accumulation in durum wheat plants under water stress. By A. KAMELI AND D. M. LÖSEL 57

Purification and characterization of a new fructan series from species of Asteraceae. By MICHAEL ERNST, N. JERRY CHATTERTON AND PHILIP A. HARRISON 63

Gender variation, partial male sterility and labile sex expression in gynodioecious *Plantago coronopus*. By HANS P. KOELEWIJN AND JOS M. M. VAN DAMME 67

Maternal effects on progeny in *Thymelaea hirsuta*. By A. A. EL-KEBLAWY, K. H. SHALTOUT, J. LOVETT DOUST AND L. LOVETT DOUST 77

Tillering and partitioning of dry matter and nutrients in *Lolium perenne* growing with neighbours of different species: effects of nutrient supply and defoliation. By CAROL A. MARRIOTT AND M. TERESA ZUAZUA 87

Response to phosphorus supply of tropical tree seedlings: a comparison between a pioneer species *Tapirira obtusa* and a climax species *Lecythis corrugata*. By DORINNE RAAIMAKERS AND HANS LAMBERS 97

Influence of cucumber mosaic virus infection on the intraspecific competitive ability and fitness of purslane (*Portulaca oleracea*). By N. FRIESS AND J. MAILLET 103

Quantitative genetics of zinc hyperaccumulation in *Thlaspi caerulescens*. By A. JOSEPH POLLARD AND ALAN J. M. BAKER 113

Survival and spread of the endophyte *Stagonospora pteridiicola* in *Pteridium aquilinum*, other ferns and some flowering plants. By P. J. FISHER 119

Experimental studies of hypothallus growth in the lichen *Rhizocarpon geographicum*. By R. A. ARMSTRONG AND S. N. SMITH 123

Benomyl inhibits phosphorus transport but not fungal alkaline phosphatase activity in a *Glomus*–cucumber symbiosis. By J. LARSEN, I. THINGSTRUP, I. JAKOBSEN AND S. ROSENDAHL 127

The effects of ozone and nutrient supply on stomatal response in birch (*Betula pendula*) leaves as determined by digital image-analysis and X-ray microanalysis. By BEAT FREY, CHRISTOPH SCHEIDEGGER, MADELEINE S. GÜNTHARDT-GOERG AND RAINER MATYSSEK 135

The ozone sensitivity of birch (*Betula pendula*) in relation to the developmental stage of leaves. By E. PÄÄKKÖNEN, S. METSÄRINNE, T. HOLOPAINEN AND L. KÄRENLAMPI 145

Determination of the number of zones in a biostratigraphical sequence. By K. D. BENNETT 155

Late Quaternary vegetation history of the Western Isles of Scotland. By J. A. FOSSITT 171

REVIEWS 197

FEBRUARY 1996 VOLUME 132 NUMBER 2

Tansley Review No. 87 Antimicrobial defences in the wood of living trees. By R. B. PEARCE 203

Analysis of stomatal CO_2 uptake by a three-dimensional cylindrically symmetric model. By T. VESALA, T. AHONEN, P. HARI, E. KRISSINEL AND N. SHOKHIREV 235

Tissue localization of u.v.-B-screening pigments and of chalcone synthase mRNA in needles of Scots pine seedlings. By JÖRG-PETER SCHNITZLER, TIM P. JUNGBLUT, WERNER HELLER, MATTHIAS KÖFFERLEIN, PETER HUTZLER, ULRICH HEINSMANN, ELMON SCHMELZER, DIETER ERNST, CHRISTIAN LANGEBARTELS AND HEINRICH SANDERMANN JR 247

The profusion of dark septate endophytic fungi in non-ectomycorrhizal fine roots of forest trees and shrubs. By KARIN AHLICH AND THOMAS N. SIEBER 259

Investigating microclimatic influences on ozone injury in clover (*Trifolium subterraneum*) using artificial neural networks By G. R. BALLS, D. PALMER-BROWN AND G. E. SANDERS 271

Effect of phosphorus deficiency on growth angle of basal roots in *Phaseolus vulgaris* By AMY M. BONSER, JONATHAN LYNCH AND SIEGLINDE SNAPP 281

Nitrogen source regulates the biosynthesis of NADP-glutamate dehydrogenase in the ectomycorrhizal basidiomycete *Laccaria bicolor*. By SOPHIE LORILLOU, BERNARD BOTTON AND FRANCIS MARTIN 289

The dynamics of ectomycorrhizal infection of *Shorea leprosula* seedlings in Malaysian rain forests. By LEE SU SEE AND I. J. ALEXANDER 297

Phosphorus nutrition of an obligately mycorrhizal plant treated with the fungicide benomyl in the field. By JAMES MERRYWEATHER AND ALASTAIR FITTER 307

Nitrite assimilation by the yeast *Candida nitratophila*. By ADNAN AL KUBISI, ABID H. ALI AND CHARLES R. HIPKIN 313

Transmissible reproductive changes following physiological adaptation to salinity in *Sorghum bicolor*. By G. NISSIM AMZALLAG 317

Micro-scale patterns of modern pollen deposition within three alpine plant communities. By H. S. PARDOE 327

Late-glacial and early Holocene vegetation of Snowdonia. By JOHN INCE 343

REVIEWS 355

OMITTED IN ERROR

December 1995 Volume 131 Number 4

Resource partitioning to growth, storage and defence in nitrogen-fertilized Scots pine and susceptibility of the seedlings to the tarnished plant bug *Lygus rugulipennis*. By JARMO K. HOLOPAINEN, RISTO RIKALA, PIRJO KAINULAINEN AND JARI OKSANEN. 521

MARCH 1996 VOLUME 132 NUMBER 3

Antioxidant responses to drought in sunflower and sorghum seedlings. By JINGXIAN ZHANG AND M. B. KIRKHAM 361

Ammonium assimilation by young plants of *Hordeum vulgare* in light and darkness: effects on respiratory oxygen consumption by roots. By C. RIGANO, V. DI MARTINO RIGANO, V. VONA, S. CARFAGNA, P. CARILLO AND S. ESPOSITO 375

The phosphorus requirement of N_2-fixing and urea-fed *Acacia mangium*. By JÉRÔME RIBET AND JEAN-JACQUES DREVON 383

Effects of elevated CO_2, nitrogen form and concentration on growth and photosynthesis of a fast- and slow-growing grass. By JOHN M. BOWLER AND MALCOLM C. PRESS 391

Effects of elevated CO_2 and nutrient supply on the seasonal growth and morphology of *Agrostis capillaris*. By R. M. NEWBERY AND J. WOLFENDEN 403

Effects of elevated carbon dioxide and arbuscular mycorrhizal infection on *Trifolium repens*. By MARJAN JONGEN, PETER FAY AND MICHAEL B. JONES 413

Photosynthesis and nutrient-use efficiency of barley in response to low arbuscular mycorrhizal colonization and addition of phosphorus. By P. FAY, D. T. MITCHELL AND B. A. OSBORNE 425

Phosphodiesters as mycorrhizal P sources. I. Phosphodiesterase production and the utilization of DNA as a phosphorus source by the ericoid mycorrhizal fungus *Hymenoscyphus ericae*. By J. R. LEAKE AND W. MILES 435

Phosphodiesters as mycorrhizal P sources. II. Ericoid mycorrhiza and the utilization of nuclei as a phosphorus and nitrogen source by *Vaccinium macrocarpon*. By M. D. MYERS AND J. R. LEAKE 445

Effects of *Ascochyta caulina* on photosynthesis of leaves of *Chenopodium album*. By C. KEMPENAAR, P. J. F. M. HORSTEN AND P. C. SCHEEPENS 453

Regional and local patterns in the spatial distribution of the flower-infecting smut fungus *Sporisorium amphilophis* in natural populations of its host *Bothriochloa macra*. By GRACIELA GARCÍA-GUZMÁN, JEREMY J. BURDON, JULIAN E. ASH AND ROSS B. CUNNINGHAM 459

The physiology of basidiomycete linear organs. III. Uptake and translocation of radiocaesium within differentiated mycelia of *Armillaria* spp. growing in microcosms and in the field. By S. N. GRAY, J. DIGHTON AND D. H. JENNINGS 471

Catechin, proanthocyanidin and lignin contents of loblolly pine (*Pinus taeda*) needles after chronic exposure to ozone. By FITZGERALD L. BOOKER, SEIJA ANTTONEN AND ALLEN S. HEAGLE 483

The effects of different ozone exposures on three contrasting populations of *Plantago major*. By S. PEARSON, A. W. DAVISON, K. REILING, T. ASHENDEN AND J. H. OLLERENSHAW 493

Effects of emissions from copper-nickel smelters on the frost hardiness of *Pinus sylvestris* needles in the subarctic region. By MARJA-LIISA SUTINEN, HANNU RAITIO, VESA NIVALA, RISTO OLLIKAINEN AND AULIS RITARI 503

Ion compartmentation in the red alga *Caloglossa leprieurii* in response to salinity changes: freeze-substitution and X-ray microanalysis. By ANIKA S. MOSTAERT, DAVID A. ORLOVICH AND ROBERT J. KING 513

Cation ratios in *Cladonia portentosa* as indices of precipitation acidity in the British Isles. By M. HYVÄRINEN AND P. D. CRITTENDEN 521

APRIL 1996 VOLUME 132 NUMBER 4

Tansley Review No. 88 Molecular genetics of cellular differentiation in leaves. By LISA N. HALL AND JANE A. LANGDALE 533

The metabolism of fructans in roots of *Cichorium intybus* during growth, storage and forcing. By WIM VAN DEN ENDE, ANNEMIEKE MINTIENS, HILDE SPELEERS, AMABILIS A. ONUOHA AND ANDRÉ VAN LAERE 555

Allocation of biomass and mineral elements in *Melilotus segetalis* (annual sweetclover): effects of NaCl salinity and plant age. By J. M. ROMERO AND T. MARAÑÓN 565

Influence of xylem vascular architecture on the translocation of phosphorus from nodal roots in a genotype of *Trifolium repens* during undisturbed growth. By M. J. M. HAY AND N. R. SACKVILLE HAMILTON 575

The effect of fungicides on vesicular–arbuscular mycorrhizal symbiosis. II. The effects on area of interface and efficiency of P uptake and transfer to plant. By N. SUKARNO, F. A. SMITH, S. E. SMITH AND E. S. SCOTT 583

Monoclonal antibodies as tools to quantify mycelium of aquatic hyphomycetes. By S. BERMINGHAM, L. MALTBY AND F. M. DEWEY 593

Development of water-conducting cells in the antipodal liverwort *Symphyogyna brasiliensis* (Metzgeriales). By ROBERTO LIGRONE AND JEFFREY G. DUCKETT 603

Direct measurement of release and assimilation of ammonia in the *Gunnera–Nostoc* symbiosis. By WARWICK B. SILVESTER, RICHARD PARSONS AND PETER W. WATT 617

Carbonic anhydrase(s) associated with lichens: *in vivo* activities, possible locations and putative roles. By KRISTIN PALMQVIST AND MURRAY R. BADGER 627

Potential effects of rising tropospheric concentrations of CO_2 and O_3 on green–algal lichens. By LUIS BALAGUER, FERNANDO VALLADARES, CARMEN ASCASO, JEREMY D. BARNES, ASUNCION DE LOS RIOS, ESTEBAN MANRIQUE AND ELIZABETH C. SMITH 641

Effects of sulphur dioxide and ozone on lichen colonization of conifers in the Liphook Forest Fumigation Project. By J. W. BATES, P. J. MCNEE AND A. R. MCLEOD 653

Stomatal uptake of SO_2, NO_x and O_3 by spruce crowns (*Picea abies*) and canopy damage in Central Europe. By STEFAN SLOVIK, ALFRED SIEGMUND, HANS-WERNER FÜHRER AND ULRICH HEBER 661
